

COLD BEERS & CHEESEBURGERS SAFETY PROTOCOLS

Employee Screening & Health Practices

- Employees are screened daily. If they have a temperature exceeding 100 degrees, or are experiencing flu like symptoms, they are required to stay home until they are symptom free, without the use of medication, for 72 hours and satisfy all CDC Requirements prior to returning to work.
- We have currently asked all staff to wear a mask and practice enhanced safety measures such as frequent hand washing and sanitizing.

Social Distancing

- Necessary steps have been taken to ensure we are encouraging social distancing including spacing of tables and bar seats.
- Social distancing signage is posted throughout the restaurant and restrooms to further encourage these social distancing practices.

Dining Enhancements

- We will be offering one disposable menu per table (more can be made available upon request). We encourage guests to view our menu online at coldbeers.com, on their mobile devices, to access our menu there as well. Lastly, our menu will be made available on a handful of our televisions throughout the restaurant where applicable.
- Additional sanitation steps have been implemented throughout the restaurant including with our utensils, cleaning of tables and restrooms. We will also have a dedicated team that will sanitize all surfaces thoroughly throughout the day.
- Additional hand sanitizers have been installed within the dining room and entryways of our restaurants for your convenience.
